# SAFETY MOMENT

## GO FURTHER WITH GOOD FOOD

Whether it's starting the day off right with a healthy breakfast or fueling before an athletic event, the foods you choose can make a real difference. Preparing your foods to go further, by planning meals and snacks in advance, can also help to reduce food loss and waste.

1. Include a variety of healthful foods from all of the food groups on a regular basis.
2. Consider the foods you have on hand before buying more at the store.
3. Buy only the amount that can be eaten or frozen within a few days and plan ways to use leftovers later in the week.
4. Be mindful of portion sizes. Eat and drink the amount that's right for you.
5. Continue to use good food safety practices.
6. Find activities that you enjoy and be physically active most days of the week.
7. Realize the benefits of healthy eating by consulting with a registered dietitian nutritionist. RDNs can provide sound, easy-to-follow personalized nutrition to meet your lifestyle, preferences and health-related needs.
