# SAFETY MOMENT

## Housekeeping

An uncluttered workplace is fundamental to any organization's safety program. In addition to cleanliness, housekeeping must include other factors, such as orderliness and proper arrangement of materials.

### Good housekeeping:

- Reduces walking and working surface incidents and fire hazards
- Saves energy by eliminating the need to work "around" congested areas and "deadwood" stored in the work area.
- Provides the best use of space
- Keeps inventory of materials to a minimum
- Guarantees a good workplace appearance
- Encourages better working habits
- Reflects an image of a well-run operation
