Mr. Borowy led a review of the charter for the Non-Core Business Committee, which is scheduled to hold its first meeting next month. Authority members discussed:

- Strategic plan and alignment
- Responsibilities
- Identification and mitigation of strategic risk
- Process and transparency
- Committee objective

After discussion, it was the consensus of the Authority to refer the charter back to Mr. Borowy for revisions prior to the Authority’s March meeting.

Ms. Nesteriak, the RWA’s Senior Vice President of Operations & Business Strategy, reported:

- On water quality results taken last May from North Cheshire Wellfield. A disturbance in the sample line resulted in an erroneous and unrepresentative result for Manganese. When the RWA became aware of the erroneous result, they contacted the Environmental Protection Agency (“EPA”) to request the test result to be invalidated. The EPA denied the request and as a result the water quality result will have to be included in RWA’s Consumer Confidence Report.
- On a power outage last December at Lake Gaillard Water Treatment Plant, which serves 60% of the RWA’s district. An inspection was conducted in February to identify the root cause. No major issues were found and the inspection served as a good test of contingency planning for staff.
- On March 5th, management will meet with local health departments to discuss issues related to water service interruptions, PFAS, and other topics of interest.

Mr. Bingaman reported:

- On a meeting in February with the Mayor of New Haven, Justin Elicker and members of his staff, to receive an overview of the RWA and discuss initiatives, economic development, and infrastructure. The meeting was positive and Mayor Elicker was supportive of the RWA’s work and complimentary of the water quality.
- On a meeting last month with First Selectwoman, Catherine Iino of Killingworth to discuss various topics. The meeting was positive and the RWA offered to review plans for possible impacts of a town project.
That as part of RWA’s Strategic Plan to hire 10 interns from the Public Utilities Management Program, 2 interns have been hired and are currently working in water treatment.

Authority members reported on recent Representative Policy Board committee meetings.

At 1:45 p.m., Ms. Mowat Young and Mr. Smith withdrew from the meeting and on motion made by Mr. Cermola, seconded by Mr. Curseaden, and unanimously carried, the Authority voted to recess to resume the Audit-Risk Committee meeting.
