

# HazWaste Helper Activity

Help little ones learn how to identify potentially hazardous items in your household.

**Instructions:** Download and print RWA caution labels. Have your child color it in using bright colors like orange, red or yellow.

Walk around your home together and identify items that are potentially hazardous. Adhere labels to the item.

Potentially hazardous items will have a warning label with one of the following words:

Caution, Corrosive, Danger, Explosive, Flammable, Poison, Toxic and Warning

Important: This is for educational purposes only.  
Do not cover up existing product warning labels.
