Chairman Mongillo called the meeting to order at 5:30 p.m. He reviewed the Safety Moment distributed to members.

Mr. Barger, the RWA’s Water Quality Manager, provided an update on the Lead and Copper Rule. He stated that the Environmental Protection Agency (“EPA”) has expanded their definition of lead service line to include galvanized iron services, if downstream of a lead service, and are contemplating gooseneck connectors, which will impact the RWA’s replacement planning.

The RWA has partnered with a consultant to assist the RWA with completing service line inventory, develop a service line replacement plan by 2025, and review RWA’s corrosion control treatment. Mr. Barger discussed anticipated regulatory changes that may include:

- Changes to corrosion control treatment
- A return to biannual water quality monitoring schedule
- Utility responsibilities for lead testing in drinking water in schools and daycares

He reported that the RWA is identifying and developing municipal and stakeholder partnerships, seeking funding assistance opportunities, and planning for public messaging and education.

Committee members discussed lead piping concerns and risks, project intention, financial projections, sampling and evaluation techniques, existing lead lines, current replacements, initial acquisition records, future upgrades, data challenges, public education programs, assumptions and funding opportunities.

At 6:40 p.m., Messrs. Barger, Bingaman, Eitzer, Oslander and Rescigno withdrew from the meeting.

On motion made by Mr. Pepe, seconded by Ms. Campbell, and unanimously carried, the committee voted to approve the minutes of its August 16, 2021 meeting, as presented.

The OCA reported no active consumer complaints. Much of the time billed reflects time spent on reviewing and preparing his memorandum for the upcoming Rate Application.

At 6:43 p.m., the OCA withdrew from the meeting.

On motion made by Mr. Smith, seconded by Mr. Pepe, and unanimously carried, the Committee approved the OCA’s August 2021 billing (\$2,240).
